Attestation for the return to the community facility:

- For a child that had contracted Sars-CoV-2.

Please submit this attestation at the kindergarten!

Declaration by the child’s parents / guardians

☐ I hereby confirm that the quarantine has ended.

The following regulations apply to us for returning to the community facility:

Quarantine in case of a positive Sars-CoV-2 result

If your child has been symptom-free for at least 48 hours or has not had any symptoms at any time during the Corona infection, your child may leave quarantine no earlier than 5 days after a positive Sars-CoV-2 result (day 1 of quarantine = day after the test day). On the 6th day, your child may attend the day care centre again.

If your child continues to have symptoms, it is recommended that you consult your paediatrician to determine whether quarantine is still necessary after 5 days of quarantine.

People who have been infected with Corona should test themselves daily for 5 days after the quarantine period with an antigen test at a test centre or a self-test. Until a negative test result is available, it is strongly recommended that people continue to isolate themselves.

In case of uncertainty or queries about the absence of symptoms, it is recommended to consult the paediatrician as well.

☐ I hereby confirm that the above regulations have been complied with.

Date, signature of the guardians / parents
